

How to learn more English: An English action plan

Part one

1. Read and say what the learner is doing (reading, writing, listening or speaking).
2. Which idea is:
 - the most difficult?
 - the easiest?
 - the most fun?
3. Which hobbies and interests does this student have?

I'm going to learn lots of English.

Every day I'm going to ...

- record myself describing an animal.
- listen to a pop song and try to sing along.
- read one page of a comic book.

Every week I'm going to ...

- write a message to my grandma in English.
- read an animal story and write down new words I learn.
- record myself singing a song.

Every month I'm going to ...

- write a blog post about my pet.
- play an online game in English.
- find information on the internet about a wild animal

Part two

Follow the steps to write your own English Action Plan.

1. What are your interests and hobbies? Write a list of three to five.
2. Work with a partner. Think of ideas for practising your English.
3. Choose two or three ideas for every day, every week and every month.
4. Write your English action plan. Draw some pictures to decorate it. Then put it in a place where you will see it every day.

Good luck!
