

My AI teacher

1. What do these words mean?

- AI
- prompt
- chatbot
- interact
- response

2. Match the words to their meaning.

AI	to tell a computer what to do
prompt	a computer program that talks with people like a person
chatbot	a computer program that can learn and solve problems
interact	what happens after you ask or say something, like an answer or action
response	to talk or do things with a computer or another person

3. Use one of the words to complete each sentence.

The _____ helps people by answering questions and giving information.

When you ask a question, AI thinks and gives you a _____.

I like to _____ with my smart speaker by asking it to play music.

The teacher uses _____ to create a story for her students.

I type my _____ into the computer, and the AI writes a short story for me.

My AI teacher prompts

Edit the prompts and copy and paste them into an AI chatbot program.

Prompt 1 – AI English-speaking friend

Act as my friend. Help me to learn English. My level of English is [CEFR level]. I am [age]. Ask me questions. Find out about me. Wait for my answer, then ask another question.

Prompt 2 – AI English teacher

Act as my teacher. My level of English is [CEFR level]. I want to learn words connected with [topic]. Make some exercises to help me. When I finish, I will ask for the answers.
