

Dominoes: Words & Pictures

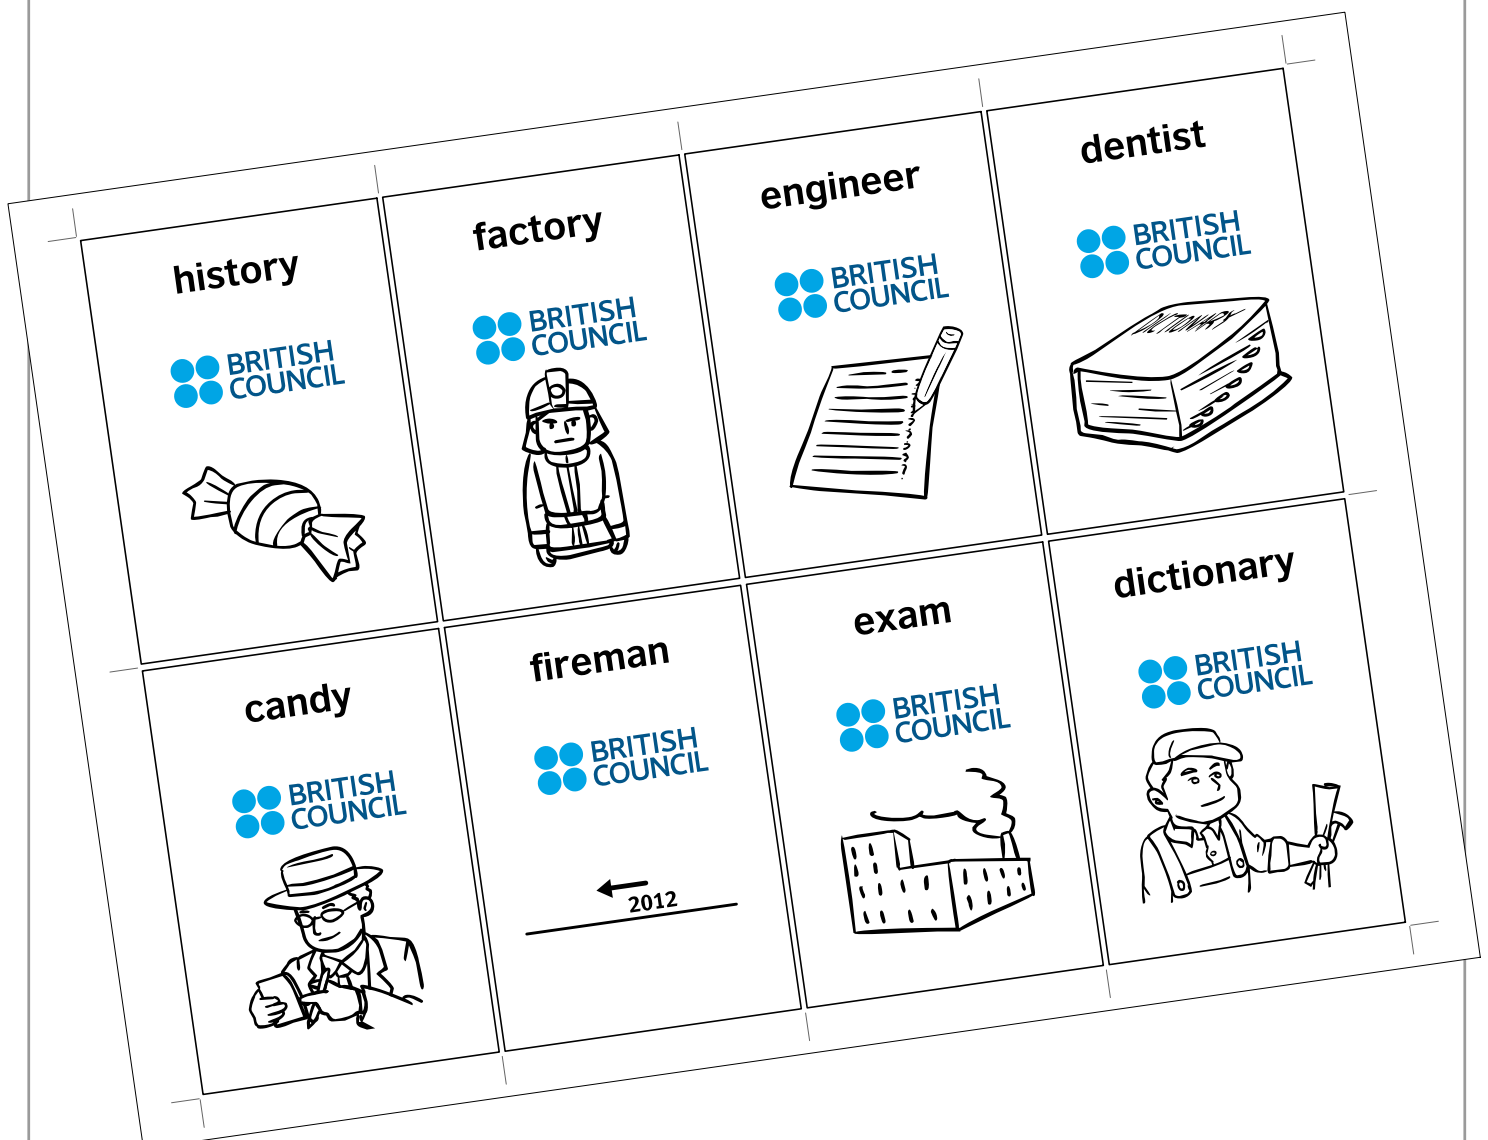

Test your spelling with our Words & Pictures dominoes matching game. You can use them as a fun warm up, filler or cooler activity.

There are 112 words and pictures (8 per A4 sheet) to match and test yourself or your students with.

If you only have a short time, then print out half of the cards and cut out the dominoes. If you have more time, why not print and cut out all the domino cards.

Objective

Match the correct spelling to the picture.

How to play

Playing alone

Shuffle the dominoes and place them face up on the table so you can see them all clearly.

Select one domino and place it in the middle of the table. This is the target domino.

Try to find the matching spelling on another domino and place it next to the correct picture on the target domino. Then, find the matching picture on another domino and place it next to the spelling on the target domino.

Now you can match two more dominoes to the new image and spelling at the end of the line of dominoes.

Continue until you have matched all the dominoes.

Playing in a group

Shuffle the dominoes and place them face down on the table so you can't see what is on them.

Share the dominoes out equally among the players.

One person selects a domino and places it in the middle of the table. This is the target domino.

The first player tries to find either a matching spelling or picture on one of their dominoes and place it next to the picture spelling on the target domino. If they do not have a matching spelling or image, they tap on the table and miss a turn. Then it is the next player's turn.

Each time a new domino is added, a new word or picture becomes available to match.

Continue playing until one player has used all their dominoes. They are the winner! If you don't use all the dominoes in the game, the person with the fewest dominoes left when no one else can go, is the winner.

Ideas

Practise spelling the word out loud when matching the cards together. Look at the real spelling for help. Try to sound out all the symbols.

Why not time yourself and see what's the fastest time you can match all the dominoes?
