

KIM'S GAME

Teacher's Notes

Language: cat, cow, dog, donkey, duck, frog, goat, pig, pony, sheep

Materials: flashcards of the animals

1. Blu-tac the animal cards on the board one by one and elicit their name from the children. Ask the children "How many animals are there?"
2. Take the cards down, one by one, eliciting the name of the animal as you do so.
3. Stand in front of the class with the cards. Let them see that you are mixing up the cards.
4. Blu-tac each card back on the board, except one. Ask the children to guess which animal is missing.
5. Repeat the procedure, leaving out 2 or 3 animals for children to guess.
6. You can also do this with students holding the cards in front of the class.
